Welcome to Vocal! Here's a quick summary of your **Gmobile® Mobile SIM only plans** just to make sure that you're across all the important things you need to know about the service and our charges.

## Information about the Service

This is a SIM-only, post-paid mobile phone service that gives you access to the Optus 4G Plus network. The plan includes a mobile phone number (or port your existing number), lets you make and receive calls, send and receive messages, includes a voicemail service and gives you access to mobile data within Australia.

**Minimum term:** month to month

**Bundling:** Not required for this service

**Handset:** You can choose to bring your own compatible 'unlocked' mobile handset or buy a mobile handset from Vocal.

**Promos and special pricing:** This summary may not cover any special or customised rates or optional extras.

### What is included

With your monthly plan allowance you can make national calls to standard fixed and mobile numbers within Australia, including national SMS, MMS, 1800/13/1300 calls and voicemail.

Your unused allowances will expire each month at the end of the billing cycle.

The included Monthly Data Allowance allows you to access mobile internet in Australia and unused data expires each month. Excess data used beyond your allowance will be charged at \$15.00 per 1GB block.

### What is not included

Your Vocal mobile plan does not include a mobile handset. Your monthly Call Allowance can't be used for calls made while overseas; nor can it be used for calls, SMS and MMS made to international numbers; calls to premium services; calls to operated assisted numbers and content services.
